Université de Liège

The University of Liège's project :

Meeting global challenges

Contributing to the regional development as well as to a **fair and sustainable society**.

Education, research and service to society are equally important to reach this goal:

- ▶ Increase **transdisciplinarity**
- ▶ As a public university, ULiège has **special duties towards society**: special focus on equal opportunities and pluralism
- ▶ **Good governance** : choices for a sustainable model

Social Responsibility of Universities towards international students : what value for what

money?

▶ Investment traditions

- ▶ Mobility in Europe for internationalisation of institutions
- ▶ Recruitment of international students in anglo-saxon tradition

▶ Funding

- ▶ Public funding and autonomy of universities in Europe
- ▶ National and international students : tuition fees

▶ Strategies for

- ▶ International students in Europe : recruitment on personal tracks or « added value pathways »: programmes dedicated to international students
- ▶ Off-shore campuses

1 - Presentation of an initiative at HEC-Business School
of the University of Liège

Dean Wilfried Niessen

2 - Roundtable : questions and interactive session,
conclusions

Questions

What price for Education ?

- ▶ European Erasmus Mundus guidelines
- ▶ Public funding and tuition fees : any common guideline or shared views ?

Some good practices?

- ▶ Individual or common initiative?
- ▶ Ethics in development cooperation and in recruitment?

What added value:

- ▶ For local partners
- ▶ For our professors when contributing to education abroad ?
- ▶ For institution : lifelong learning , master, Ph.D?

How to report on benefits or impact ?

- ▶ For institutions, professors, at-home students, international students, local partners
